Weak Lock (Cryptography)

Step 1 - got the encrypted text 0e160012113a3672752a1e2a72381e2c752a72321e727532381e3671332a3c

Step 2- Added that cipher into decode.fr xor decoder

And got the flag by default bruteforce option in decoder website

Flag - OWASP{w34k_k3y_m4k3s_34sy_w0rk}
